HOT ARCTIC		
D.A.MEDVEDEV. Defending the national interests of Russia in the Arctic Regions... 14 The President of the Russian Federation has made a speech at the Security Council session addressing the issues of the state policy of the RF in the Arctic Regions. These regions have a strategic importance for our country; their development has a direct impact on the reaching of long-term objectives of the state's development and competitiveness at the global markets.		
THE 5th BAIKAL ECONOMIC FORUM		
D.A.MEDVEDEV. Focus on the expansion of the all-round connections..... 17 In the presence of the President, the attention of the participants and guests of the forum was focused on the event's operations in expanding the all-round connections with the countries of Europe and Asia-Pacific Region, in forming new investment projects concerning perfection of the territories' transportation and energy infrastructure as well as the integrated development of the rich natural resources.		
S.M. MIRONOV. The major goal is to come up with recommendations concerning the sustainable development..... 18 In his greeting to the forum participants, the Chairman of the Federation Council has noted that its major goal is to come up with recommendations concerning the sustainable social and economic development of Siberia and Trans-Baikal regions. The key role in the discussions should be played by analysis of ecology, today's state and development of the human potential.		
I.I.SHUVALOV. The role of Siberia and Far East in the global development..... 20 First Deputy Head of Government of the Russian Federation, Head of the state committee dealing with development of the Far East, has presented the major report at the morning plenary session where he spoke about challenges and priorities in opening and development of Russia's Far Eastern regions.		
S.M. MIRONOV. Siberia, the land of opportunities..... 27 In his report at the forum's second plenary session, the Chairman of the Federation Council has specified: "The real source of our country's strength is its territory, and primarily, Siberia and Far East with their vast resources. To develop this territory, to rehabilitate it in order to make it suitable for comfortable living — that's what should be our main challenge for the next 10-15 years".		
A.V.KVASHNIN. Siberia needs raw materials' advanced processing enterprises.... 33 The authorized representative of the President of the RF in Siberian Federal District has claimed that Siberia should be used not only as a warehouse for raw materials. It should become a center for economics development and a growth point for the country's economics.

Y.P.TRUTNEV. The main target is to use the natural resources carefully and ensure their timely regeneration..... 34 The Minister of natural resources and ecology of the RF is analyzing problems of mining and regeneration of the mineral resources, use of water resources, environment protection, and industrial safety.		
V.P.ORLOV. The regions should be given back their authority in subsurface resources management..... 38 The Chairman of the Federation Council's Committee of natural resources and environment has commented on the outcomes of the "round table" discussion on the subject of "Attracting investments for development and processing of natural resources of Siberia and Far East", which took place within the framework of the forum.		
Gold mining in Siberian and Far-Eastern Federal Districts may reach 331 tons in 2020..... 39		
S.M. MIRONOV. The Fifth Baikal Economic Forum proved the best-represented meeting in its history..... 40 The Chairman of the Federation Council has made a speech at the forum's closing session and finalized its outcomes. He has thanked all organizers and participants of the forum who took an active part in plenary sessions, in "round table" discussions and other events within the forum.		
RDMK-2008		
Tenth international business conference "Russian Precious Metals and Gemstones Market: Today's Situation and Future Developments" (Moscow, November 5 – 6, 2008)..... 43 RPMG-2008 will be held with a view of the large-scaled historical task, which is facing Russia — the development of modern Russian market economy that will be able to double national gross domestic product by 2010.		
In the main trend of Russian science, education and industry in the 21st century..... 48 Within the framework of RDMK-2008 the fifth international symposium "Hydrogen energy, nano-technologies and platinum group metals in CIS countries" is being held. The participants of the symposium shall pay most of their attention to the nano-technologies: development of catalysts of the new generation which contain nano-platinoid-based composites and development of experimental technology for their production.
