CONTENTS		
EVENT OF THE YEAR		
MAIN RUSSIAN FORUM		
XI Saint Petersburg International Economic Forum14 On the 8th of June 2007 Saint Petersburg will become the economic capital of the world when XI Saint Petersburg International Economic Forum begins.		
G.O. GREF, V.I. MATVIENKO. Instrument of communication and creation 16 The Minister of Economic Development and Trade of the Russian Federation and the governor of Saint Petersburg greet the participants of the Forum.		
VEBRO-2007		
Hydrogen Energetics of the Future: Regions and Branches17 The conference is confined to the Saint Petersburg International Economic Forum. To the participants of the conference will be presented the "Hydrogen Energetics" national innovative research and technology program for the period till the year 2050, which draft is up for debate at the present day.		
P.B.SHELISHCH. By means of development of environmentally friendly energetics.....18 The President of the National Hydrogen Energetics Association considers problematics of VEBRO-2007 a principally important step in the further development of hydrogen environmentally friendly energetics.

[ДМ/ДК]	№ 3 (159) 2007 г.	[РМ/РС]
Liberalization of precious metal and gemstone import and export53 Interregional association of precious metals producers held a panel discussion on liberalization of precious metal and gemstone import and export and the new cargo customs declaration/transit declaration (CCD/TD) pursuant to the EU single administrative document. The discussion was joined by the officials of Moscow Chamber of Commerce & Industry, Federal Customs Service (FCS), customs control organizations, foreign exchange control service of the FCS, excise customs, Russian state assay office, Bank of Russia, and "Precious metals. Gemstones" magazine.		
M. Yu. PISKULOV. Implementation of high-tech projects in the production of precious metals in Russia.....55 The CEO of Russian operations of "Johnson Matthey" (UK) spoke at the 2nd Adam Smith Conferences annual CIS Precious Metals Summit on February 15, 2007 in Moscow about the issues of utilizing platinum group metals in the high-tech sector.		
Mikhail PROKHOROV quits MMC Norilsk Nickel58 On March 16, 2007 Mikhail Prokhorov of Norilsk Nickel, stepped down as the CEO of that company and discussed the reasons for departure and told about his plans for the future.		
Golden futures63 The recent stock market slump reminded the investing public about gold as a financial instrument to balance portfolios and hedge risks. The specifics and opportunities of gold trading was the topic of "Rough seas in shallow water" conference, as Prime TASS reports.		
V.V. RUDAKOV. We ought to allow everyone to make a living legally.....66 The Chairman of the Committee for Support of Mining, Production, Processing and Trade of Precious Metals and Gemstones of the Russian Federation, and the Chairman of the Board of ZAO Polyus thinks that further liberalization of the Russian precious metal and gemstone market should stay the course. However, it should not be limited to the trade regulatory framework only, but include a whole range of changes in other areas as well, specifically in production, energy sector, environment, and people well-being.		
PRECIOUS STONES		
"Jewelry industry: Design. Technologies. Equipment" international scientific conference74 Ginalmazzoloto company and "Precious metals. Gemstones" magazine ask the "Jewelry industry: Design. Technologies. Equipment" international scientific conference speakers to email their conference presentation materials at dragmet@mail.cnt.ru to be included in the printouts.		
V.S. BALITSKIY, O.V. BALITSKAYA (Chernogolovka, Moscow region). Synthetic and treated gemstones currently used in Russia.....75 Gemologists discuss the production of synthetic and treated gemstones, their market and usage in the Russian jewelry industry.		
D.S. DRONOV. The specifics of jewelry collection design.....84 A senior lecturer of jewelry department of the Graduate School of Folk Arts reveals the specifics of a goal-driven jewelry company that strives to have collections in accordance with industry standards.

MAGAZINE INSIDE THE MAGAZINE		
Hydrogen Energy and Platinum group Metals	151	
"Equivalent" is a journal in journal which highlights on the DM/DK's pages the issues related to the development and implementation of high technologies on the platinum group metals market in connection with the development of hydrogen energy. It is edited by the Vice President of the Council of Experts for High Technologies, Doctor of Chemical Sciences, Professor A. A. EVDOKIMOV.		
N.G. SEDELNIKOV, A.M. ORLOV, V.M. PODLEDNEV. Rust-resistant anodic materials with textured and porous platinum group metal-based coating	152	
The cathode sputtering method utilized by the article's authors from "Ginalmazzoloto" and "H2 Technology" is characterized by high productivity and ensures better adhesive strength between surfaces than any other coating.		
S.A. GRIGORYEV, O.V. CHERNISHOVA, L.I. ILYUKHINA, E.A. KORCHAGINA, K.A. JOUCE. The new nanostructural electrocatalysts for solid polymer electrolyte systems	156	
This work of Moscow-based scientists and engineers presents the research findings on the use of modern carbon nanostructures as the carriers of platinum electrocatalysts for solid polymer electrolyte (SPE) systems.		
V.V. POPLAVSKIY, I.M. ZHARSKIY, V.G. MATYS, T.S. MISCHENKO (all from Minsk, Belarus). The electrochemical oxidation of methanol on metal electrodes with platinum coatings formed by ion-assisted deposition	159	
Belarus scientists share their research findings demonstrating how to get high catalytically active coatings with light usage of platinum that can be utilized as electrodes for fuel elements.
