№ 9 (153) 2006 г.		
CONTENTS		
MARKET		
PRECIOUS METALS		
Russian industry of precious metals: state, results of 2005 and development problems.....14		
<p>The Russian Gold-Miners Union presents its report with analysis of mining of gold, silver, platinum, and palladium in 2005 and its outlook by regions of Russia. The problems of state regulation of this branch are discussed, including main administrative barriers on the path to its development. Among these are obstacles to improvement of the law on precious metals, export of precious metals, reproduction of mineral resources development, transformation of precious metals to capital, development of small business, etc.</p> <p>The Russian Gold-Miners Union offers its suggestions on improvement of Tax Code, the laws "On subsoil", "On precious metals and precious stones" and also on gold mining from gravel deposits, export liberalization of platinoids etc.</p>		
<i>Appendix 1. The draft federal law "On amendment of some legislative acts of the Russian Federation on matters of incentive of gold mining from gravel deposits".....65</i>		
<i>Appendix 2. Explanatory note to the draft federal law "On amendment of some legislative acts of the Russian Federation on matters of incentive of gold mining from gravel deposits".....68</i>		
<i>Appendix 3. Feasibility study to the draft federal law "On amendment of some legislative acts of the Russian Federation on matters of incentive of gold mining from gravel deposits".....70</i>		
PAWNSHOP SERVICES		
N.V. BOBROV. Russian market of pawnshop services the day before great changes.....71		
<p>The chairman of board of directors of the Obyedinenny Lombard OJSC, board member of the Interregional Association of Pawnshops analyses the current state and development prospects of Russian pawnshops during press-conference in Sokolniki.</p>

RPMG-2006		
NEW FORMAT		
Eighth international business conference		
"Russian Precious Metals and Gemstones Market: Today's Situation and Future Developments" (Moscow, November 1 – 3, 2006).....79		
<p>RPMG-2005 will be held with a view of the large-scaled historical task, which is facing Russia — the development of modern Russian market economy that will be able to double national gross domestic product by 2010. That's why the specific business proposals of Russian and foreign companies with a view of mutually beneficial cooperation will be also reviewed.</p>		
COMMITTEE OF RPMS-2006		
Questions to participants of RPSM-2006.....87		
<p>Committee of the Ninth International Business Conference "Russian Market of Precious Metals and Stones" (RPMS-2006) addresses conference participants with main issues planned for discussion on plenary meetings and session in connection with documents of the Summit-2006 of G-8.</p>		
About new prospects for reduction of shady sales of precious metals and stones, legalization of financial recourses connected with these.....89		
<p>Agenda of the Committee's meeting of RPMS included the issue of prospects for reduction of shady sales of precious metals and stones in Russia. It was suggested that participating social groups must have an opportunity to use other quite legal methods for performance of their business activities and deserved living standard instead of criminal operations.</p>		
INFO FOR REFLECTION		
Organization of tourists' competition in gold mining in Russia — is it true?109		
<p>Stirring information about international competition in gold mining which took place for the thirtieth time in Finland was published on hundreds Russian-speaking websites. Publishing this information the editorial staff of the branch journal "Precious Metals. Precious Stones" ("PM/PS") thinks it's expedient to supplement it with another one Internet-article more closely related to Russia.</p>		
MARKET		
CURRENT EVENTS		
Russian jewelry network informs.....114		
<p>Current events of the Russian market of precious metals and stones in September, 2006 are presented by the Russia jewelry network , the leading informative and analytical agency of the Russian diamond and gold-and-platinum branch (http://www.jewellernet.ru).</p>		
DIAMONDS AND BRILLIANTS		
Diamonds are in plenty and will be much more, while demand is low121		
<p>Already in this year it is reported about the excess of diamonds in the world market: it amounted to 500—700 million dollars by the end of June. New mines will increase supply, and what about demand?</p>

[ДМ/ДК]	№ 9 (153) 2006 г.	[PM/PS]
GOLD		
Increase both in gold production and in prices		126
As predicted by the Russian Gold-Miners Union, the produced quantity of gold in Russia will amount to 220—250 tons by 2013. By that time mines of Maisk, Kupol, Verninsk, Nataalka will be developed in full volume.		
PLATINUM		
Whether Russia trusts in its platinum?		135
Platinum-group metals are like hot cakes all over the world. Platinum occurs in nature 30 times rarer than gold. It is undisputed leader of jeweller's art. Why platinum jewelry of domestic manufacture is almost unable to strike root in Russia?		
EXHIBITIONS		
Finish of October Marathon race		141
Four shows at the same time will be organized in pavilions of International Exhibition Centre "Crocus Expo" during the last week of October which is a distinctive feature of October jewellery shows in Moscow!		
ECOLOGY		
Who will pay to nature?		144
People little think about what means mining of precious metals and stones for the nature and who and when will pay for this. However, not only the next generations will have to pay in any case, but the present one.		
CRIME		
Loot, cheat, contraband, and shady sales		146
The state beats off from three sides in the field of precious metals and stones — from robbers and other criminals, from accidental and repeated criminals and finally from illegal holders, sellers and buyers. Is it enough police for all these — that is the question? If not, so maybe it is time to seek for another solution?		
EQUIVALENT		
JOURNAL-IN-JOURNAL		
Hydrogen Energy and Platinum-group Metals		153
"Equivalent" is a journal-in-journal which highlights on the DM/DK's pages the issues related to the development and implementation of high technologies on the platinum-group metals market in connection with the development of hydrogen energy. It is edited by the Vice President of the Council of Experts for High Technologies, Doctor of Chemical Sciences, Professor A. A. EVDOKIMOV.		
BERLIN-PM'2006. Platinum metals in modern industry, hydrogen energy, and life support spheres of the future		154
The Second International Conference of declared problematics on the initiative of the Center for the Development of International Cooperation of Manufacturers and Consumers of Gemstones, and of the Federal State Unitary Enterprise "Supermetall" shall be held on September 11—15, 2006 in Berlin.		
"PM/PS" published reports of teachers, post-graduate students and students of Moscow State Institute of Radio Engineering, Electronics and Automation (MIREA) presented for conference.

[ДМ/ДК]	№ 9 (153) 2006 г.	[PM/PS]
V.V. VASENKIN. Century XXI offers new challenges		155
The chairman of the Committee of the Second International Conference BERLIN-PM'2006, manager of Supermetal FGUP NPK informs about its process.		
A. G. KHARITON. Development of production in harmony with nature		157
International Academy of Informatization emphasizes that Platinum Conference initiated by Russian scientific and business groups takes place in Berlin after the G-8 Summit-2006 chaired by Russia and in the foresight of Summit-2007 which will be chaired by Germany.		
E.M. BYCHKOV. Project of AUTO-H₂ News Agency		159
The president of International Cooperation Development Centre of manufacturers and consumers of precious metals introduced the project of MIREA Hydrogen Club within the framework of the research and educational center "Sokolynaya Gora" in the Conference BERLIN-PM'2006.		
Discussion will be continued in Moscow in RPSM-2006		160
Six co-chairmen of RPSM-2006 participated in the Conference BP-2006. They came to a conclusion that it is necessary to continue discussion of a series of questions raised in BP-2006 in one and a half months in the Ninth Conference RPSM. These issues first of all concern the role of platinum-group metals in market processes, which in opinion of some participants of discussion can be considered as a "key role" in many cases.		
A.L. GUSEV. I wish you every success on this way!		161
The chairman of committee on Congress organization has emphasized in his speech to participants: "Nobody knows, what civilization shall be in the 22nd Century — technocratic or biocratic, but it is perfectly clear already now that the mankind will introduce renewable energy sources at an ever increasing pace in the next decades, and hydrogen will be extensively used as a secondary energy carrier".		
E.A. VLASOV, A.N. PROKOPENKO, A.N. POSTNOV, N.V. MALTSEVA. Catalysts of steam conversion of methane with secondary carrier		165
Results of a series of experiments in steam conversion of methane presented by scientists from Saint Petersburg allow to predict application perspectiveness of catalysts with secondary carrier.		
TRAGEDY		
MINE FIRE		
Nobody wants to bring situation to critical state		169
Gold mine in Chita Region with the dead 25 miners is the center of attention of the governor, Office of Public Prosecutor and Ministry of Natural Resources. According to the Russian press, the investigation promises to be total, strict, but just: nobody wants to "bring situation to critical state". More critical is impossible!		
SUBSCRIPTION		
NEWS FROM ADAMAS		
Subscription to company's news is open		175
