<b>CONTENTS</b>		
<b>STATE AND MARKET</b>		
<b>PRESIDENT OF THE RUSSIAN FEDERATION</b>		
<b>V. V.PUTIN.</b> Sustainable development — a leading topic of ..... 14		
V. V.PUTIN. Most of the recent crises arrived in Russia from external sources. And naturally, we could not do anything about these factors. But a sound risk management system allows us to minimise the repercussions of external shocks, and moreover, prevent the emergence of crises due to internal causes, from the accumulation of our own imbalances, which is fundamentally important for an emerging economy such as Russia.		
<b>Yakut parliament becomes the second time</b> .....26		
<b>PRIME MINISTER OF THE RUSSIAN FEDERATION</b>

[ДМ/ДК]	№6(222) 2012 г.	[ PM/PS ]
<b>D.A.CHEMAKIN.</b> For the federal government Amber Mill — this is such a small thing.....44		
Interview of the Minister of Regional Industrial Policy of the Government: how the privatization of Amber plant will remain in federal ownership. He revealed the recipe for a 500 percent profit. He said that the employees never want to change. But he, too, is a real employee.		
<b>V.I.KOZYREV.</b> Adapt to new challenges.....56		
The tasks of modernization, coupled with innovation, with new global challenges of the century, the industry is required to make the Moscow region more attractive for investment. It is necessary to bring the production results to the needs of the state and people, evaluate them in terms of benefit to people who are essential participants in the process of modernization. In connection with some innovations in this field of industry minister answers questions from the editor "DMDK".

	<p>V.V.PUTIN: "Russian-Chinese relations have been deservedly called an example of the new type of relations between states. Our relations are free from prejudices and stereotypes and this makes them stable and not subject to short-term considerations, which is valuable indeed in today's world, where stability and mutual trust are so clearly lacking".</p> <p>The major purpose of the Fifth International Conference "KUNMING — PM'2012" consists in the determination of the strategic directions of research studies and practical developments that will ensure the solution of the following vitally important problems: a) environmentally safe recovering of platinum metals from all kinds of primary and secondary raw materials; b) minimization of the rate of consumption of platinum metals in all fields of application; c) optimization of economy of production of platinum metals and the manufacture of platinum metal products and application of them.</p>
